Immaculately maintained and one of the most fuel efficient boats for its size on the water!

German precision luxury cabin cruiser. Modern sleek exterior/interior design with multiple living spaces; cockpit, upper saloon, below deck galley, lounge, bathroom & twin accommodation (4 berth) with white leather upholstery!

Introducing the Bavaria SR36 hardtop Coupe.

She has been immaculately maintained with a full-service records. Powered by twin Volvo Penta D3 turbo charged 220hp engines together with a bow thruster; this makes her a dream to drive or manoeuvre in all conditions.

This would be one of the most fuel-efficient boats of this size on the water, using approximately 50/55 liters (diesel) per hour at optimal cruising speed (20/22 knots) or just 8 liters at circa 6/7 knots.

The downstairs galley and lower saloon are spacious with ample headroom (circa 1.9m) together with two well-appointed cabins and bathroom. The aft cabin is configured as two singles which can convert to a spacious queen double with the master cabin equipped with a custom made European inner sprung mattress.

The upper saloon houses the drive station, a second dining/entertaining area and elevated passenger lounge to keep the skipper company whilst underway.

Moving outside, the cockpit features L-shaped seating and a large swimming/fishing platform with retractable ladder and stainless steel staples with rod holders. Ample room here also for a large chilly bin, Webber barbecue and umbrella.

There are many additional features to this modern luxury boat such as an electric sunroof, lockable aluminium bi-folding doors (between the cockpit and upper saloon) & second door to lower saloon/cabins; Traxsat Satellite TV, ample storage, tinted safety glass windows & slimline solar panels for optimal battery performance.

A 12m Orakei Marina berth is also available to rent (short or long term) or purchase as part of a boat and marina package.
