PRIMETIME

PRIMETIME

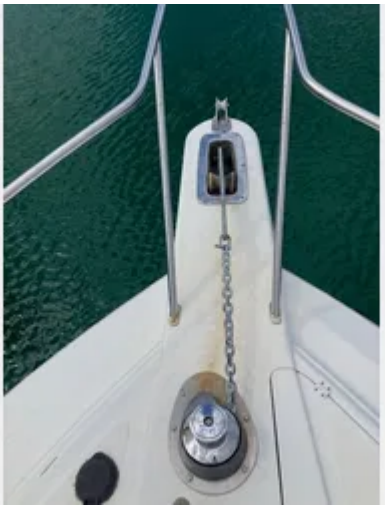

The 12M Gulf Harbor Marina berth on H pier can be sold as package deal with the boat for $210,000

PRIMETIME is on the market, a quality built Genesis 320 Euro Flybridge that is in excellent condition for its age and is ready for its NEW owners!

This 1992 Genesis 320 Euro Flybridge is in excellent condition for its age and is ready to be passed onto its next owners. The Volvo engine and stern leg were both fully re-built in 2021 at 1317 hours along with having an electronic throttle installed at the same time which along with the bow thruster makes her easy to maneuver and berth. All receipts for the re-build and throttle upgrade will be available to any seriously interested purchasers.

For a 10.9 meter boat there is plenty of room inside and out along with a flybridge that is great for navigating and cruising, especially on those calm summer days!

The front cabin comfortably sleeps 3 and another 2 can sleep on the drop down saloon berth.

The galley is well situated so that it is handy to the saloon dining area but is also convenient for entertaining and not being separated from the rest of the passengers when cruising or sitting in a bay fishing or just relaxing on the aft deck.

This is a very affordable, reliable and economic vessel that would suit a family or group of friend that want to get into boating at a reasonable price!

The 12M Gulf Harbor marina berth can also be sold with the boat as a package deal or separately after the boat has been sold. These berths generally go for around 140k to 150k so if you are after a boat berth combo get in touch as you never know, you could get yourself a bargain!
