Electric and manual bilge pumps

Wet exhaust

Exhaust fan in Lazarette

Spur line cutters on propeller shaft

Fuel transfer system with fuel polishing

# Your chance to own one of only nine ever made!

Experience luxurious quality and unparalleled comfort - Available now!

Designed by Jeff Leishman and built by Pacific Asian Enterprises, this 3-cabin Nordhavn 56 Motorsailer Mark II "Adworld" is a true rarity – only one of nine ever built!

Adworld is remarkably spacious and carries the pedigree of the builder's earlier Mason-designed sailing yachts. With a ballast of 8,000 kgs, this design reimagines the concept of sail, blending it seamlessly with the versatility and range of a trawler-style vessel.

She is equipped with an impressive array of features, including a sailing cockpit with helm station and controls for the power winches and roller-furling sails. Forward, you'll find a trawler-style saloon and wheelhouse, while aft, a generous trawler-style deck provides plenty of outdoor space. The pilothouse dash and overhead panels are fully outfitted with navigation and instrument controls, and port and starboard pilothouse doors open directly to the foredeck and the roomy forward sailing cockpit.

Inside, the generous saloon provides comfortable seating with panoramic views in every direction – fore, aft, port, and starboard. Below, you'll find the master stateroom, two guest cabins, and two well-appointed bathrooms.

Contact Orakei Marine today to arrange a viewing.
