Been kept in excellent condition and maintained annually!

The OBC Marina berth can also be purchased as a package deal with the boat or separately after the boat has been sold.

Introducing Colombina to the market for the first time!

Designed by Frank Pelin and launched in 2007 Colombina was built by Father and Son. Constructed of Heart Kahikatea frames and stringers, BS1088 Red Maranti Plywood double diagonal and fibre glassed with epoxy. The frames and stringers were built by Pelham boats and the cabin structure was built by a Shipwright and overseen by John Norris. A professional cabinet maker was used for the interior.

Colombina presents in good condition for its age and is a large volume vessel for its size. There is ample storage throughout the cockpit and interior with almost every cavity used. There is also a lot of space on the cabin top for storing paddle boards etc.

In the Interior there are 2 cabins. One double and a 4 berth bunk cabin (vee berth converts to double also) along with 2 extra berths in the saloon she comfortably sleeps 8.

The galley is well equipped with a 4 burner stove and oven, 130L Fridge and a 110L freezer. The hot water is instantly supplied via a LPG califont.

The saloon is very spacious with a large folding saloon table. The carpet was replaced in 2025 and the leather upholstery is in good condition.

Powered by twin Iveco 330hp engines (with the coolers being replaced in 2024) on shafts with Morse controls that have been maintained annually with records available for a serious buyer.

The transom is set up with Weaver tender davits to store the 3.1m Maxxon rib that is powered by a 3.3hp Mercury outboard engine. There is also 2 live bait tanks on the duck board along with a removable bait board and ample fishing rod holders.

This is a well-built 14m sedan that is ready to go to its next owner for its next chapter of its life! The berth at the OBC marina is also available for purchase as a package deal with the boat or separately after the boat has sold.
